

I know from experience how important K-Love is to me and everyone else that listens to it. I have been a financial supporter of K-Love for years now and cannot imagine not having it to listen to. With all of the things going on in this world, it is nice to know that we can find something positive in K-Love. Please do not do anything that will take this station away from us. It is one positive in a world of negatives. Thank you.
